COTTON MARKETS.

NEW YORK, Dec. 22—COTTON—Not much new business was attempted in cotton to-day. Scarcely any outside orders reached the exchange, and the local interest had already been pretty well evened up in anticipation of the holidays in this country and Europe. The market opened ateady at an advance of 1 to 4 points, but there was not a full response to Liverpool's good showing. Private cables were quite bullish, indicating low stocks in the hands of English spinners against a good demand for cloths and yarns. To-day's local market, however, had practically no speculative support, and before noon had drifted back to the closing figures of yesterday. Later in the session the situation was very tame, but sentiment was rather bullish, particularly on the Liverpool statistics and the small receipts of cotton in this country. The southern spot markets were all reported in very good shape. Few traders had the courage to take the while business was very dull, the undertone was quite firm, with theyclose steady. Prices were net 1 point lower to 3 points higher. COTTON MARKETS.
